## TECHNICAL SKILLS

<b>Programming</b>	JavaScript, TypeScript, Python, PHP	<b>Frontend</b>	React.js, Next.js, React Native, HTML, CSS
<b>Backend</b>	Node.js, NestJS, REST APIs, Microservices, Socket.io	<b>Databases</b>	MySQL, PostgreSQL, MongoDB, Redis, Elasticsearch
<b>Cloud &amp; DevOps</b>	AWS, GCP, Docker, Serverless Framework, CI/CD, Git	<b>AI &amp; Systems</b>	Agentic AI Systems, LLM Integration, AI Application Development
<b>Architecture &amp; Leadership</b>	System Design, Solution Architecture, Design Patterns, Code Review, Technical Leadership, Project Management		

## WORK EXPERIENCE

### Technical Lead

squareboat solutions private limited

02/2025 - Present

Gurugram, Haryana

Squareboat is a web development company that provides web development, app development, web design, DevOps consulting and chatbot services.

Achievements/Tasks

- Led end-to-end delivery of 25+ client projects from architecture to production deployment
- Managed and mentored a team of 30+ engineers, improving sprint delivery consistency
- Architected scalable 50+ backend services using Node.js and AWS infrastructure
- Collaborated directly with clients to translate business needs into technical solutions
- Improved deployment workflows / code quality through reviews and best practices
- Led delivery of production systems handling high concurrency, multi-provider payment workflows, and large-scale data pipelines, ensuring performance, security, and reliability

### Associate Team Lead

squareboat solutions private limited

07/2024 - 02/2025

Gurugram, Haryana

Squareboat is a web development company that provides web development, app development, web design, DevOps consulting, and chatbot services.

Achievements/Tasks

- I'm honored to be recognized as Start Performer of the year for 2024
- I'm honored to be recognized as Employee of the Month for August 2025
- Coordinated execution of parallel development tasks across team members
- Supported junior engineers through code reviews and debugging
- Contributed to architecture discussions and enforced engineering standards through structured code reviews
- Applied performance optimization, SEO improvements and secure coding practices across production deployments

# WORK EXPERIENCE

## Senior Software Engineer

squareboat solutions private limited

04/2022 - 07/2024

Gurugram, Haryana

Squareboat is a web development company that provides web development, app development, web design, DevOps consulting, and chatbot services.

*Achievements/Tasks*

- Owned development of full-stack modules using Node.js, React, and MySQL across multiple production systems
- Ensured on-time delivery of features through sprint planning and tracking
- Delivered 50+ production releases across 10+ client projects improving feature velocity and reliability
- Diagnosed and resolved critical production issues improving system stability
- Contributed to code reviews and adoption of engineering best practices

## Software Engineer

squareboat solutions private limited

10/2019 - 04/2022

Gurugram, Haryana

Squareboat is a web development company that provides web development, app development, web design, DevOps consulting, and chatbot services.

*Achievements/Tasks*

- Engineered 20+ web application modules using Node.js and React
- Designed and implemented REST APIs and integrated third-party services under guidance
- Collaborated with senior engineers to deliver backend and frontend features
- Fixed bugs and performance issues across development cycles

## Internship Trainee

Information technology department, delhi Secretariat

01/2019 - 10/2019

New Delhi

*Achievements/Tasks*

- Implemented & maintained a application for govt. Of India.
- Handling implements Delhi Govt Website (DSSSB & Planning Dept.) using Drupal - 7.
- Mentor & Lab Admin at IT Dept of Delhi secretariat.

# PROJECTS

SalesRight.ai – AI-Driven Sales Optimization (12/2024 - 12/2025)

- Worked on backend systems for an AI-driven sales optimization platform, building data processing pipelines handling 5GB+ daily ingestion and supporting model-driven workflows such as conversion scoring and pricing optimization. Integrated LLM-based automation components and scalable data services for analytics-driven features.

GrayPorter – E-Commerce Platform (10/2024 - 12/2025)

- Contributed to full-stack development of a global e-commerce platform implementing catalog management, cart workflows, and secure checkout experiences. Managed integration of 7+ payment gateways including multi-region express checkout and supported product indexing via Google Merchant Center while ensuring transaction reliability and performance.
- Applied SEO optimization, page speed improvements, and secure coding best practices across multiple production systems enhancing performance, visibility, and operational reliability.

VSpartans (05/2025 - 12/2025)

- Developed scalable backend modules supporting 10,000+ concurrent users on a financial learning platform, integrating regulatory workflows including eKYC and eSign along with mobile in-app purchase flows across Google Play and Apple ecosystems, enabling monetization and secure onboarding.

Qyubic (03/2022 - 02/2023)

- Delivered scalable application modules supporting high-traffic enterprise workloads while implementing dynamic UI rendering optimizations and improving responsiveness and system interaction under heavy load conditions.

Atadel. (03/2021 - 10/2021)

- Engineered backend services enabling real-time tracking for quick-commerce deliveries, implementing concurrency-safe order handling and resolving race conditions to ensure reliability under simultaneous multi-order processing in real-time environments.

# EDUCATION

Master of Computer Applications - MCA, Computer Science

Bhai Parmanand Institute of Business Studies - BPIBS

07/2017 - 06/2019

New Delhi
